

Stichting NIOC en de NIOC kennisbank

Stichting NIOC (www.nioc.nl) stelt zich conform zijn statuten tot doel: het realiseren van congressen over informatica onderwijs en voorts al hetgeen met een en ander rechtstreeks of zijdelings verband houdt of daartoe bevorderlijk kan zijn, alles in de ruimste zin des woords.

De stichting NIOC neemt de archivering van de resultaten van de congressen voor zijn rekening. De website www.nioc.nl ontsluit onder "Eerdere congressen" de gearchiveerde websites van eerdere congressen. De vele afzonderlijke congresbijdragen zijn opgenomen in een kennisbank die via dezelfde website onder "NIOC kennisbank" ontsloten wordt.

Op dit moment bevat de NIOC kennisbank alle bijdragen, incl. die van het laatste congres (NIOC2025, gehouden op donderdag 27 maart 2025 jl. en georganiseerd door Hogeschool Windesheim). Bij elkaar zo'n 1500 bijdragen!

We roepen je op, na het lezen van het document dat door jou is gedownload, de auteur(s) feedback te geven. Dit kan door je te registreren als gebruiker van de NIOC kennisbank. Na registratie krijg je bericht hoe in te loggen op de NIOC kennisbank.

Het eerstvolgende NIOC vindt plaats in 2027 en wordt dan georganiseerd door HAN University of Applied Sciences. Zodra daarover meer informatie beschikbaar is, is deze hier te vinden.

Wil je op de hoogte blijven van de ontwikkeling rond Stichting NIOC en de NIOC kennisbank, schrijf je dan in op de nieuwsbrief via

www.nioc.nl/nioc-kennisbank/aanmelden-nieuwsbrief

Reacties over de NIOC kennisbank en de inhoud daarvan kun je richten aan de beheerder:

R. Smedinga kennisbank@nioc.nl.

Vermeld bij reacties jouw naam en telefoonnummer voor nader contact.

the world's most popular media owner creates no content

the most valuable retailer has no inventory

the world's largest accommodation provider owns no real estate.

“A revolution doesn’t happen
when society adopts new tools,

It happens when society adopts
new behaviors”

Clay Shirky

Definition

- › The Internet of Things (IoT) is a computing concept that describes a future where everyday physical objects will be connected to the Internet and be able to identify themselves to other devices.
- › The IoT is significant because an object that can represent itself digitally becomes something greater than the object by itself. No longer does the object relate just to you, but is now connected to surrounding objects and database data. When many objects act in unison, they are known as having "ambient intelligence."

Internet of Things: next phase of the .net

Rob Chandhok (Qualcomm):

We're going to a world where we connect trillions of sensors. They connect to each other and bring intelligence to us as human beings through the .net. Industry has to decide if standards are coming. To develop, use what is out there. That will speed-up your time2market.

Industrial Internet of Things: 80% of total IoT

Industrial Internet of Things: Keys to Success

1. Balanced Strategy: Focus on Growth & Operational Efficiency

2. Anticipate the Shift from Product to Service

3. Rethink your Partner Ecosystem

4. Focus on your IIoT Workforce

Paul Daugherty (Accenture):

- #IIoT: Connected Equipment, Connected Vehicles, Life Safety, Connected Energy, Connected Health
- Mastering #IIoT: Operational Technology higher spend than Information Technology, IIoT will bring them together.- Pace & Speed is most important to create and deliver success

1.0 | 1784 | based on mechanical production equipment driven by water and steam power

2.0 | 1870 | based on mass production enabled by the division of labor and the use of electrical energy

3.0 | 1969 | based on the use of electronics and IT to further automate production

4.0 | tomorrow | based on the use of cyber-physical systems

1. Product

2. Smart product

+

3. Smart, connected product

MoodRadar DAVID

De Twentse Zorgcentra (DTZC) is met ruim 1.900 cliënten de grootste aanbieder van zorg voor mensen met een verstandelijke beperking in Twente. Binnen DTZC is er, samen met de Universiteit Twente een project opgestart met als titel 'MoodRadar DAVID'. Het project heeft als doel agressie bij cliënten te detecteren om zodoende mogelijke incidenten te voorkomen.

MOODRADAR DAVID

'Move4Mobile gaf mij de ondersteuning waarnaar ik op zoek was'

Bedroom

Smart books interact with the house's 3D and virtual reality system, bringing to life what you read.

Bathroom

Doctors will be able to give you virtual medical checks
Toilets will analyse waste for medical problems such as colon cancer.

Roof

Power collected through solar panels and stored in backup resources to power house and car.

Bedroom

Clothes made with smart fabrics regulate your temperature and monitor your health
E-commerce will become F-commerce - online consumers will be able to enjoy a tailored shopping experience based on Facebook 'Likes'.

Kitchen

Smart surfaces identify what's on them and have the ability to react accordingly - keeping coffee cups warm and iced-tea cold.
Refrigerators will advise on recipes based on whats in stock and creates personal diets.

Living Room

All appliances connected through invisible networking system
Entertainment system creates life like sounds, images and experiences to completely envelop you in near 4D experience.

Garage

Camera at entrance has facial recognition software which is linked to criminal database
Car which is able to drive itself.

Office

See-through electronics, screens, touch panels and tactile displays deliver 3D holographic experiences
Contact lenses allow you to access infinite information resources instantly before your eyes.

Funda introduceert virtueel bezichtigen met Oculus Rift

Makelaars kunnen huizenzoekers voortaan huizen virtueel laten bezichtigen op funda. Daarvoor heeft het online vastgoedplatform een interactieve toepassing ontwikkeld rondom de VR bril Oculus Rift.

Met deze bril kan de makelaar potentiële kopers rondleiden door een huis zonder dat ze daar daadwerkelijk aanwezig zijn. funda

verwacht dat virtueel bezichtigen voor meer contact tussen makelaar en huizenzoeker gaat zorgen.
